AYER'S
CHERRY PECTORAL,
FOR THE RAPID CURE OF
Colds, Coughs, and Hoarseness.

BRIMFIELD, Mass., 20th Dec., 1855.
DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.
SPRINGFIELD, Miss., Feb. 7, 1856.
BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people. HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.
WEST MANCHESTER, Pa., Feb 4, 1856.
SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, [illegible] "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

ANTAGONISTIC
To Prejudice and Empiricism!
OLD DR. CULVERWELL'S
Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) and 28 years Medical Referee, &c.)
Radical Regenerator,
FOR SEMINAL WEAKNESS,
In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.
This excellent Remedy, discovered by the world renowned Dr. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by *one* person would, through recommendation, result in an eventual sale to many.
Dr. CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.
Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail,* free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 158 Grand-St., New York, Sole Agents for the United States and Canada. Nov 19 d&wly.

PURIFY THE BLOOD!
MOFFATT'S
LIFE PILLS
......AND......
PHOENIX BITTERS.
Free from all Mineral Poisons.
THE great popularity which **Moffatt's Life Pills** and **Phoenix Bitters** have attained in consequence of the extraordinary cures effected by their use, renders it unnecessary for the proprietor to enter into a particular analysis of their medicinal virtues or properties. Having been more than twenty years before the public, and having the united testimony of more than *Three Millions* of persons who have been restored to the enjoyment of perfect health by them, it is believed that their reputation as the best vegetable medicine now before the public, admits of no dispute. In almost every city and village in the United States, there are many who are ready to testify to their efficacy in removing disease, and giving to the whole system renewed vigor and health.
In cases of *Scrofula, Ulcers, Scurvy* or *Eruptions* of the skin, the operation of the *Life Medicines* is truly astonishing, often removing in a few days every vestige of these loathsome diseases by their purifying effects upon the blood. *Fever and Ague, Dyspepsia, Dropsy, Piles* and in short most all diseases, soon yield to their curative properties. No family should be without them, as by their timely use much suffering and expense may be saved.

Republican Nomination.

FOR GOVERNOR,

LOT M. MORRILL

The Responses of the People.

The action of the Republican State Convention of Thursday last meets with the full and cordial approbation of the Republican masses, if we may judge from the responses which we daily hear from all quarters. The nomination was a most fortunate one, and is hailed with an enthusiasm which rarely attends any nomination. In many of our country villages, the glorious Republican flags were at once thrown to the breeze upon the reception of the news, and the people everywhere manifest a zeal in the cause which show that the principles of freedom have struck deep into their hearts, and that the Republican party has a strong hold upon their judgment and their affections.

Not only does our standard-bearer meet the approbation of the people—but the platform adopted appears to be eminently satisfactory. We have conversed with many Republicans, since the Convention was held, and from different parts of the State, and we have not seen or heard of a man who does not cheerfully and heartily endorse the resolutions in all their parts. The principles laid down as Republican principles commend themselves at once as worthy of a party which is based upon a defence of the rights of freedom and humanity, and which claims also to be a *national* party. With principles like these, the Republican party takes its place as the only national party of opposition to the pro-slavery, fillibustering sham democracy, and it is destined to a national triumph, as surely as the triumph of truth is certain—as surely as the people love freedom and hate oppression.

The resolution upon the liquor question is conceded on all sides to embrace a wise and truly democratic disposition of that subject.—Every Republican that we have seen cordially endorses that resolution—and we have not heard of one anywhere who is not entirely satisfied with it. Notwithstanding our opponents were calculating with great confidence that there would be serious dissensions among us upon that subject, the whole thing has been disposed of quietly and satisfactorily. Wonderful as it seems to our opponents, it was yet found that the plain, simple, straightforward policy of *truth* was the very best policy for the occasion, as it is for all occasions—and that there was no need of any attempt at political trick, in the management of that question. The fact has long been manifest that the cause of temperance should be taken out of politics—and no man in the Republican ranks, whether a Maine Law man or an opponent of prohibition has any disposition to deny that the people independent of party relations, should be allowed to settle the matter. A reference of the question to the people, upon its own merits, and in such a manner that no other question can be mixed up with it, is the proper method. It is democratic—it is Republican.

Thus the skies are clear for the Republicans of Maine. In the whole history of our State there has never been a political party more consolidated and homogeneous than the Republican party now is. It stands forth in one glorious unbroken phalanx,—without dissensions or controversies either upon matters of principle or upon State candidates—and ready to meet the opponents of freedom whenever and wherever they may choose to assail. And this gratifying position of the Republican party of Maine ought to have its influence, and we are certain it will have its influence, for good, upon the party in other States, and especially upon the Republican cause in Massachusetts. Our friends there have had many difficulties to contend with which we of Maine have not had—and under all the circumstances have fought a good fight, and done nobly for the cause of freedom. The opposition to freedom in the old Bay State is now rapidly crystalizing into one homogeneous body of hunkerism, which is to embrace all the sham democrats, and the remains of Straight Whiggery and pro-slavery Know Nothingism. The main body of the people, when this desirable arrangement is perfected, will place themselves in the Republican ranks, and Massachusetts will stand forth, as she did in 76, the great leader in the battle for freedom. Her Republican Convention has met the wishes of true Republicans everywhere in nominating Mr Banks for Governor—and we have not the slightest doubt that he will be elected by a triumphant majority. If the opposition will only unite under the hunker flag, where they all belong, Mr Banks will sweep the State by a majority approaching to that given for Mr Fremont.

That the influence of the harmonious and efficient action of our own Convention will be beneficial upon Massachusetts, is evidently felt by our friends there. And as an indication of the important bearing which our action may have, we copy a few paragraphs from the Traveller's notice of the Maine Convention.

The action of the Maine Republican Convention was admirable. The nomination of Mr Morrill for Governor, by a vote of nearly forty to one, on the first (or only) balloting, speaks volumes for the harmony and good sense that prevail among the friends of freedom in that State which used to be one of the most reliable of Democratic communities, and which is now equally reliable for free labor, because it was truly democratic in its ideas. Mr. Morrill was an old Democrat, and was generally counted among the hunker members of his party, but when the Cincinnati Convention, immediately after the Brooks outrage, made the national Democratic party over to the slaveholders in the most formal manner, Mr Morrill would not consent to be sold. He left the self styled Democratic party the very moment he heard what had been done. He did not wait to see what others would do, but set an example for others to follow. Others did follow it, by thousands, and to his bold and conscientious action must be attributed, in no small degree, our splendid Maine victories of September and November. What he did shows that he is a man of courage and energy, and we all know that his talents are high, and that his character is pure. He is just the man to be at the head of a free State in these times, when the national government and the Supreme Court are seeking to make slavery everywhere triumphant, as well in old States as in new Territories, in Maine as in Kansas.

Maine's example, last year, had a prodigious effect on Massachusetts. The immense vote we gave Fremont and Dayton was considerably owing to the immense vote which Maine gave for Governor Hamlin two months earlier. We look for a similar result in Maine this year, with far more confidence than we felt in Mr Hamlin's election by a heavy majority. The Republicans of Maine have sound sense as well as heroic courage, and the union of such qualities in a party assures for it an imperial position.

CONSOLIDATION OF THE OPPONENTS OF THE REPUBLICANS.—The Executive Committee of the National American Party, at their late meeting in this city, did not select the exact day of their State Convention, in consequence of intimations held out to them that there might possibly be a union of National Americans, Gardiner Americans, Old Line Whigs, and perhaps Democrats upon one ticket, in opposition to the nominees of the Republican party. It is understood that a Convention which will throw more light upon the subject, will be held on or about the 5th of September next.—*Boston Traveller.*

We hope to see this action speedily consummated. It is just what ought to be done, and what will be done, sooner or later—not only in Massachusetts, but throughout the Union. Parties are chrystalizing—as they ought. In Maine, Straight Whigism has been dead for a year, and those of its followers whose sympathies are not with the cause of freedom are this year going where they belong—with the sham democracy. They will probably be represented in the Democratic State Convention at Portland to day. At any rate, there will be no pretence of a Straight Whig organization in Maine this year. It is now seen,—as we have all along declared,—that there is but one political issue before the people of the United States, and there can be but two parties—one in favor of freedom and the other (practically at the North and avowedly at the South) in favor of slavery. When the side factions get fairly settled, as they are now settling, and the two great parties stand out untrammeled, the people will see and know the issues of the day—and unless the memory of our fathers and the love of liberty is extinguished in the American heart, the issue of *such* a national contest cannot be doubtful.

A sharp contest for delegates to the State Convention took place in the Belfast "democratic" caucus on Saturday night, in which Smart of the Free Press floored his adversary Dickerson of the Journal, electing his ticket, 249 to 117, and it is said the County stands about so. Smart has recently been taking all the residuum of the Straight Whigs in to the democratic party, without ceremony, and claiming for them a share of the offices. He therefore gets their support in the caucuses. The opposite faction of the "harmonious democracy" does not like the proceeding very well, and is making something of a row about it. They say there is not national patronage enough coming to Maine to be divided with these eleventh hour Whigs, and as they have no chance whatever of carrying the State, they solemnly protest *against* dividing the morsel which fell to them from Washington.

The Democratic State Convention assembles at Portland to day (Tuesday). There has been an animated contest for delegates in many sections of the State—and it is not improbable there will be a warm time at the Convention. There are understood to be quite a number of gentlemen on that side who are anxious for the honors of martyrdom at the hands of the Republican party—inasmuch as democratic candidates who are rejected by the people have ordinarily been considered entitled to a foreign mission or some other fat office at the hands of democratic national administrations. Among those named as probable or possible candidates before the Convention, we have heard the names of William P Haines of Biddeford, Judge Howard, Judge Shepley, Bion Bradbury, Nath'l Littlefield, Leonard Jarvis Amos M Roberts, George P. Sewall, and George Evans.

PEARLS BY THE BUSHEL. The Albany Statesman has an extremely *fishy* pearl story. It says that some two weeks since, two gentlemen, while on a fishing excursion, out of curiosity examined a muscle which they found in a muddy brook, and to their surprise, it contained a pearl. Fishing operations were suspended, and the search was continued with astonishing results. For six days, the two friends, in a private manner, continued gathering pearls, and about a week since one of them took *nearly a bushel* of nice pearls to New York, where a celebrated firm in the jewelry business advanced $40,000 upon the gems!

Now that the editor of the Whig is "cracking up" Lot M Morrill it is humbly suggested that he refrain from reading the columns of the Kennebec Journal where he "curried down" the same gentleman.—*Democrat.*

If that gentleman was ever "curried down" by us, it was when he belonged to the sham democratic party, and was therefore keeping bad company. But his instincts were for freedom, even then—and he left the party when he found it hopelessly and irredeemably wedded to the slavery interest. We can "crack him up" now more conscientiously than we ever "curried him down"—but he needs no cracking up from anybody.

ACCIDENT FROM BURNING FLUID.—Another of those frightful accidents from the use of burning fluid, which are so frequently reported, occurred in South Danvers last Monday night. Mrs. Mary Prescott, who resides in Lowell, but is visiting at the residence of Mr. Moses Jewett, having occasion to arise about ten o clock, to attend to the wants of her child, lighted a fluid lamp, when it instantly exploded, throwing the fluid over her person, burning her hands, face and breast in a serious manner.

The Sea Serpent is patronizing Cape Town, at the Cape of Good Hope, this summer.

The Lincoln County Agricultural Show will be held this year at Waldoboro,' on the 13th, 14th, and 15th days of October.

LOCAL AND MAINE NEWS.

THE CELEBRATION.—We call attention to the programme advertised in another column by the Committee of Arrangements, of Eagle Company No 3, and of the Military, for a Grand Celebration of the Fourth in our city. A grand parade and prize trial of fire engines will take place—the prize consisting of a splendid Silver Trumpet, to be awarded to the successful competitor from abroad. Each company to play through 200 feet of hose, each selecting their own pipe and nozles, and each having one horizontal play only.

A free collation is to be provided for the companies from abroad.

Invitations have been sent to a large number of Fire Companies in other places, a list of which is published in the programme—and we understand a number of them have already accepted.

The military part of the procession and parade will embrace some five or six companies of this vicinity (named in the programme) and will make a brilliant appearance. A cavalcade of Truckmen will add an interesting feature.

Col. Wm H Mills, has consented to act as Marshal of the Day, and he will be supported by a proper number of assistants, not yet named we believed.

The celebration will be of an interesting character, and we have no doubt will attract large numbers of people to the city.

RUNAWAY.—A horse belonging to Mr. Danforth's stable, ran away yesterday, from Penobscot Street, and turning the corner at Messrs Webster & Goodwin's store threw out a young man who was in the wagon attached,—bruising him somewhat, but not seriously injuring him. The horse ran a few rods further, and crashing through the front fence of Mr Stickney, on the corner of Prospect and Centre Streets, brought up against the house with such force as to knock himself down. The horse was cut some in his legs but not greatly damaged. The wagon was a good deal smashed.

POLICE COURT.—*Monday* June 29. Daniel O'Conner was taken by a temptation for stealing shoes from the store of H. P. Crowell, and was then taken by the police. Whereupon Judge Pratt fined him $10 and costs.

Peter Haggerty, for being drunk on Sunday, was brought up and fined, and as he couldn't pay, he was committed.

ARRESTED. The police made an arrest yesterday of Albion Grant, charged with stealing shingles from a raft belonging to Hon Wm R Hersey of Lincoln. Some of the shingles were found in Grant's house.

The ladies of the Brewer village Benevolent Association will hold a levee and sale on the Fourth of July, at 2 o clock P M. Admittance 25cts. The public are invited to attend.

BANGOR TROTTING PARK.—FOURTH OF JULY. Among the other attractions of the day, the proprietor of the Bangor Park, (Mr Dennet) has organized a very interesting troting match for a purse of $50, and another for a $25 purse, and a number of celebrated nags have already been entered and others will be. The names of "Rattler" "Black Hawk," "Fanny Jackson," "Morgan," "Lady Fremont" and others are announced.

PISCATAQUIS.—The County Commissioners meet at the Court House, in Dover, next Tuesday, July 7th.

SPIRITUAL CONVENTION IN PORTLAND.—The *State of Maine* of Saturday says

This Convention assembled at Mechanics Hall this morning. There was quite a large delegation of Spiritualists from Boston and New York present, as speakers, but the audience was rather small. The following questions were announced as topics for discussion. [We learn that the convention will continue this afternoon and evening, and also to morrow all day, and Sunday in the afternoon and evening.]—1. Is man, in any just sense a spiritual being, and has he spiritual wants? 2. How far, if to any extent, does the modern church, whether Catholic or Protestant, satisfy these wants? 4. What does spiritualism propose to do for the redemption of man from his present condition? 5. What is spirit intercourse in its broader sense? 6. How does spiritualism propose to affect the ordinary relation which man now sustains to man, commercially, socially, religiously, morally? 7. What relation, if any, does modern spiritualism bear to the revelations of the past? Among the persons expected to be present, and to take part in the Conference, the following, from Boston and vicinity, may be named: D. T. Goddard, J. M. Spear, S. C. Hewitt, Eliza S. Kenney, I. S. Sheldon and A. E. Newton.

CANADIAN FLOUR FOR NEW YORK VIA PORTLAND.—The Argus states that the steamer Western Port which sailed from Portland for New York, on Wednesday, took 1000 barrels of flour for that city which came from Canada on the Grand Trunk Railway to Portland, being a fulfilment of a prediction that flour from Canada would ultimately be transferred to New York by that route.

CREDITABLE.—There is a Young Ladies Library Association in Ellsworth, which (as we learn from the American) although it has been organized less than two years, has already between 600 and 700 volumes on its book shelves—most of them standard works.

Launched at Eastport from C. S. Huston's ship yard the bark "Charles Heddle," of 413 tons, built in a superior manner. No pains or expenses have been spared in making her a staunch vessel. She is owned by Mr John French and Capt. David Brown. Capt. Brown will command her. The Sentinel say she is one of the best vessels ever built in that town.

Rev Geo. W. Bosworth, pastor of the Free street Baptist Society of Portland, took passage in the steamer Khersonese for Liverpool intending to make a tour of the Continent returning about the middle of September.

On the 17th inst., while Mr. George Freese's son was leading a calf by a rope the animal ran suddenly around him, entangling his limbs so effectually as to cause him to fall upon a stone, which both dislocated and broke the upper bone of the arm.—*Ellsworth American.*

The carrying of the mail between Gardiner and Lewiston, via. Litchfield, Sabattis &c., has been awarded to Mr. Jefferson Bran, of West Gardiner, for the next four years. Three trips per week are made on this route.

CELEBRATIONS DOWN EAST.—The Baptists of Calais will celebrate the Fourth by a grand Fair under the auspices of the ladies. At Lewy's Island there is to be an oration, three canoe races, and a foot race—a reguler old fashioned celebration.

BREEDING FISH.—In regard to the enterprise of Mr Treat, of which we have heretofore spoken, the last Calais Advertiser says

We understand that Mr Upham Treat, formerly of Frankfort, has been busily engaged since early in spring to the present time in buying up Aelwives, Shad, Bass, and Salmon, and depositing them in Shattack's Lake and one or two others adjacent to it, to spawn.—He has secured the right of way from the Lakes to the sea, and has cleared out the stream so that his fish can pass without interruption between the lakes and the sea. He does not expect any returns from his speculation for three years when, if they multiply and do well he will reap a rich harvest every year thereafter. Mr. T has expended upwards of two thousand dollars in the operation, and it is to be hoped he will realize his most sanguine expectations, for it must be a great benefit to this region. The project has been tried in France successfully, and we see no reason why it should not succeed equally as well in this country.

A boy, whose name we have not learned, had his feet cut off one day last week, in one of the mills at Miltown, by a circular saw, which caught him as he went to step across the edging table.—*Calais Adv.*

KANSAS.—The Cincinnati Gazette publishes the following letter, dated Lawrence, June 17th.

"Gov Walker continues at Lecompton, he is making preparation to visit every settlement in the Territory and have a talk with the people. He has ten thousand copies of an inaugural address printed, to scatter broadcast among the squatters. He expects to revolutionize the public sentiment and unite the people on Democratic grounds, and have them sink the question of freedom for slavery for the present.

The plan now is, to make this a free Democratic if not a slave State, but Gov Walker has yet to learn that a large majority of the Free State Men of Kansas are Republicans.

The marshals appointed by Gov. Robinson to take the census of Kansas, have been qualified and entered upon the discharge of their duties. They are to make thorough work, and a *correct* return will be made from every quarter of the State. The Governor appoints five marshals, and they are authorized to appoint deputies, viz. Wm Phillips, central Kansas, Rev. Daniel Foster, southeastern, Mr. Jameson, northeastern, Mr. Harvey southwestern, and Mr. Kaga, northwestern portion of the State.

This is an important movement, and as the recent election will test the strength of the pro slavery faction, the August election will show what the Free State party can do.

METEORIC PHENOMENON.—P. Johnson communicates the following tough story to the New York Tribune from Carbondale, Pa., June 20.

"A strange and startling phenomenon took place near this city just at sunset last evening. A large cloud was seen making its appearance, coming directly from the northwest, accompanied by considerable wind. When near this place, a dark looking cloud or substance was seen to leave the cloud and make diagonally for the earth. So soon as it struck the ground, contrary to all expectation, it became highly luminous. Making directly for a large barn that stood in the field, it passed through its centre, setting it on fire, and continued its course, gaining in velocity as far as the eye could reach, making a straight course for the woods, melting stones of considerable size, and burning up brush and underwood, making a complete road of a rod or more in width, for the distance of three miles, and finally fetching up against a perpendicular breast of solid anthracite coal of sixty feet in thickness, which proved rather too much for his comet ship, leaving nothing but a sulphurous mass behind."

TREMENDOUS HURRICANE.—In addition to the tempests, whirlwinds, &c., already chronicled on Saturday 13th inst., the day on which the comet was on time, but failed to strike generally,—a tremendous hurricane (as reported) came down upon the town of Pana, Illinois, at 2 P M. There is not a house left standing in the place, but is more or less injured. About fifty buildings including a church, railroad depot, &c., were either totally wrecked or shoved off their foundations. Some fifty persons were also dangerously wounded by the wreck of the houses, and a child killed outright. There has not been such another tornado chronicled. The following are all the details farther than the above as given:

A small dwelling house was blown over the Railroad. One man attempted to keep his door from blowing open—the wind getting the better of him took the door off its hinges, and the man with it, to a distance of 75 yards.—Part of a wood shed was blown two miles southeast of Pana. Mr Edwards and his clerk were blown a considerable distance into the prairie. The upright of the water tank was blown over the Beckwith House, and heavy timbers to a distance of two and three hundred yards. Three men were blown off the platform in front of the passenger depot, to a freight depot, a distance of three hundred yards. A conductor was blown through a window.

A MONSTER BLAST. On the 21st of May, a blasting operation of unparalleled magnitude took place in Holyhead harbor. The object was to remove a portion of Holyhead mountain so as to form a new Harbor of Refuge at Holyhead. Several chambers of mines were prepared and charged with 25,000 pounds of powder. At a given signal, all the chambers containing the gunpowder were simultaneously ignited, and the huge body of the rock and mountain were upheaved, and fell down on the side in immense fragments. The amount of rock displaced by this blast, is estimated at 135,000 tons.

THE BURNING OF THE MONTREAL The following particulars of this disaster are rather more full than those received by telegraph
Nothing unusual occurred after leaving the wharf until the Montreal had reached Point Pe Fulge, about twelve or fifteen miles above this city when the wood work near the furnaces was discovered to be on fire Almost at the very moment that the smoke was first discovered the flames broke forth, causing the utmost consternation among the crowd of passengers The fire was first discovered at about five o clock, when the steamer was nearly abreast of Cape Rogue Every effort was made to arrest the flames, and for this purpose the engines were stopped so as to lessen the draft, but finding it impossible to save the steamer, Capt Rudolph ordered her to be run towards the shore, and at the same time the officers and crew exerted themselves to get out the lifeboats
The flames spread with the most astonishing rapidity, and in a few seconds after the steamer began to move forward the wildest confusion and despair prevailed throughout the ship, and numbers of the passengers threw themselves overboard and were in most cases drowned

DR SANFORD'S

INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic without the debilitating effects experienced from most purgatives It acts slowly and gently, but surely, moving the bowels to carry off all the seated matter, at the same time stimulating the liver to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonful at the first attack and it will soon disappear For an overloaded stomach or when food rises or sours take the Invigorator after eating and it will not prove disagreeable or oppressive For Heartburn Palpitation or Difficult breathing take a tea spoonful once or twice daily For Loss of Appetite Languor, or Listlessness the medicine is invaluable It will restore the appetite and make the food digest well Nightmare take a teaspoonful on retiring, and the demons of dream land will all be faries After eating a hearty dinner take a dose of Invigorator and it will relieve all oppression of fullness The Invigorator is a Liver Remedy of unequalled virtue acting directly on that organ curing Dyspepsia Jaundice Bilious Attacks Dysentery Piles Worms and all Female Obstructions, for which it has no equal

We know there is nothing now before the American public prepared with such skill by a scientific man, particularly for diseases of the Liver as Dr Sanford's Invigorator or Liver Remedy It has attained a reputation second to no other article in the world simply because it rests on its own merit To convince all by trial that it is all that its proprietors claim it to be if any of our readers are suffering from any such diseases as are described in Dr Sanford's advertisement, we know of no remedy that will so surely cure them as the Invigorator

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver Stomach and Digestive organs It came to us with so many testimonials in its favor that we have noted its effects in some of the worst cases of continual debility caused by deranged liver and in every instance the effect was to relieve or give a permanent cure Dr Sanford's Liver Invigorator is what we refer to We always have been credulous about cures by patent medicines but we are convinced that this medicine for family use, is not overrated by the host of recommendations it has Our advice is for all troubled with Indigestion Debility or Bowel Complaint, to get a bottle and try it, our word for it relief will be experienced

Blessings to the Invalids who use Dr Sanford's Invigorator for it will relieve them of their pains as soon as it is taken into their stomach Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away as daylight will banish darkness,—of this there can be no doubt to those who try it for it carries conviction with every dose taken Another evidence is the thousands of certificates from those who use it or have been cured by it Try one bottle—if it does not benefit then we are mistaken

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate —The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there are here saved inventors

BANGOR DAILY WHIG AND COURIER.

Whig and Courier.

Wheeler & Lynde, Proprietors.

WEDNESDAY, JULY 1, 1857.

Republican Nomination.

FOR GOVERNOR,

LOT M. MORRILL

Dodging the Question, but not getting Clear of it.

We perceive that the democratic managers at Washington are throwing out intimations that they will endeavor to avoid the Mormon difficulty by abolishing the Territory of Utah, and attaching its soil to other Territories or States. This will be a sufficiently cowardly method of meeting the polygamy question, without any doubt; but it would not relieve the party from its awkward position in regard to it arising upon its popular sovereignty dogma—nor would it dispose of the troublesome Mormons. The party says that Congress cannot touch the slavery question in the Territories, because that would be interfering with popular sovereignty—and also denies in terms the power of Congress to meddle with *any* domestic institution of the people of the Territories. But polygamy is an institution,—and we think nobody will deny that it is a *domestic* institution. So it is in the same category with slavery—and modern democracy has said that Congress cannot touch that. Democracy will not therefore touch polygamy, even in national territories, although the people of the Union are calling loudly for the suppression of the foul system.

The democratic party proposes instead of doing what it ought, to sneak out of the difficulty, and virtually to deny its own doctrine of popular sovereignty, by placing the Mormons under governments which they do not wish to live under and attempting in an *indirect* manner to procure the abolition of a system which they (the democracy) havn't courage enough to abolish directly. The new expedient moreover would not affect the object of extirpating Mormonism.

MR ALLEN'S FAREWELL SERMON. We have received a copy of the Farewell Sermon of Rev Joseph H Allen, delivered in the Union Street (Unitarian) Church in this city, on the 24th of May last. It is published by request, and is very neatly printed by Samuel S Smith. The subject of the sermon is the connection of the pastor with the Society, and "The Proof of my Ministry." In presenting this Mr Allen gives his views in his usual vigorous and eloquent language as to how the institution of the Christian Church can best fulfil its sacred commission to this age and country, and also what is its condition, are some of the tests by which we should judge of the office of the Christian Ministry.

THE REPUBLICAN SPIRIT ABROAD. A young man writing from abroad to send the Courier to his address in the country, says:

You need not send it unless it is a Republican paper, for I am one of the young Republicans and intend to remain so.

The young Republicans are growing up around us in every village and school district in the State. Many of them date their political impressions from the glorious campaign of last year and most of them have adopted principles (as advanced in that campaign) which will fix their political character for life. With such a basis the Republican party is sure to grow and prosper.

ANOTHER ILLUSTRATION OF THE DRED SCOTT DECISION. Solomon Northrop, a colored man of Saratoga N Y, who was kidnapped and carried into one of the lower slave States and held in slavery for several years, but finally found his way back to freedom, brought a suit some time ago against the kidnappers whom he knew and who were certain to have fared badly under an investigation, but since the Dred Scott decision he has been obliged to abandon all hope of bringing them to justice, because he can not sue in the U. S. Courts.—Here is a sample of what modern democracy means by *equal* justice and *equal* rights.

SAFETY OF THE MESSRS NORCROSS. The despatch from Quebec on Saturday in relation to the ... burning of the steamer Montreal, stated that Messrs Norcross and Phillips of Three Rivers were among the passengers and probably lost. The Messrs Norcross have relatives in this city, who telegraphed to Three Rivers on Monday, and we are happy to say received an answer that the Quebec despatch was erroneous for both the Messrs Norcross were safe, and had not been on board the steamer at all.

We see by yesterday's mail that it was Hon Stephen C. Phillips, of Salem, Mass, who was lost on the Montreal. He had been engaged in Canada in lumber operations. The body of Mr Phillips came over the road to Portland on Monday evening, and was immediately sent on its way to Salem.

Mr Phillips has filled various offices—Municipal, State and National,—to the satisfaction of his constituents. The announcement of his death caused a profound sensation of grief. At sunset, by order of the city authorities of Salem, all the bells of the city were tolled and on Sunday the flags on the shipping, armories, engine houses, &c, were displayed at half mast in token of the public bereavement.

We are in receipt of California, Oregon and Sandwich Islands papers, from Mr Kimball of *Noisy Carrier's Publishing Hall* San Francisco.

IOWA.—A Republican State Convention has been called in Iowa to meet on the 9th of August to nominate a candidate for Governor. The Democratic party it is supposed, will nominate Augustus Caesar Dodge.

MINNESOTA ELECTION.—The St. Paul Times of the 19th inst says the Constitutional Convention will stand sixty one Republicans to forty-seven Democrats.

LOCAL AND MAINE NEWS.

AN ACKNOWLEDGEMENT. We call attention to the Card of the Eagle Company, acknowledging the kindness of M Bird, the celebrated Ventriloquist and Magician, who kindly relinquishes his claim upon Norombega Hall on the Fourth of July, in order that the invited companies to the celebration may be accommodated with an ample room for their collation. M Bird will give his exhibition at City Hall.

RESUMED PRACTICE.—We are happy to learn that the health of our townsman Dr W H Brown has become so well re established as to admit of his resuming the practice of his profession. He accordingly announces that he has done so.

THE CELEBRATION OF THE FOURTH in this city now promises to be a very attractive one. Twelve companies at least of firemen and military it is now ascertained will be present,—a larger number than have ever appeared in procession before in this city. The contest for the trumpet promises to be an animated one.

BURGLARY IN PORTLAND. The watch and jewelry store of Mr N J Gilman, on the corner of Union and Middle Streets was broken into on Sunday night and plated ware to the value of about fifty dollars taken.

Since the New Jersey excitement, pearls are as abundant as ever mica was, and the mania has reached Maine. The editor of the Waterville Mail says he has seen several pearls taken from "fresh water clams in the brooks thereabouts for which the holder assured him he had been offered one hundred dollars.

The fishing at Moosehead Lake the present season is said to be first rate. A correspondent of the Boston Transcript, writing from the Kineo House, says:

"Two gentlemen lately caught with the fly one hundred and fifty pounds of brook trout in three successive mornings, and all on the shore of Kineo and quite near the Mt. Kineo House. Some gentlemen from New York have just come in from a fishing excursion around the mountain with a splendid string of trout, five of them weighed thirteen pounds (brook trout). Moose are said to be more plenty than usual. We have fresh moose steaks on the table daily.

ARGUMENT IN THE KNIGHT CASE. The exceptions in the Knight case were argued before the full court at Augusta last week. The argument occupied three days—Mr Clifford for the prisoner, Mr Goddard and Att'y Gen Appleton for the Government. One question presented by these exceptions is the right of the prisoner, in a capital case, to triors in case of challenge to a juror for favor. The presiding Judge ruled that he was not entitled to them and that it was for the court to determine the question of the impartiality of the jurors. This is we believe, a new question in our courts and it is a very interesting and important one.

STEAMER CANADIAN.—The statements in the Montreal Advertiser that the "fine steamer Canadian is a hopeless wreck," is, we are informed on good authority, not correct.

The steamer was going at the rate of thirteen miles per hour when she struck, and the momentum of a body weighing over 3000 tons as she did with her cargo, was such as literally to split the ledge on which she struck. Her stem and sharp bows were forced into and upon the rock so as to hold and keep her from sinking instantly. The owners have made all arrangements with the Submarine Company of Boston to examine her and they hope ... to get her off although much injured. If they can, by any means contrive to keep her all ... she may be got off and repaired.—*Port Adv*

DIX ISLAND. This small island of about 5 acres in its area—situated about three miles from the main land of South Thomaston and ten miles from Rockland—is at present a very busy place. The island is owned by Messrs Beals & Dixon, of New York, who have a large contract with the Government to furnish granite for two wings of the Treasury building in Washington, and which, it is calculated, it will take five years to fulfil. There are now employed on the island about 250 workmen engaged in quarrying, trimming, leveling and dressing the stone.

LIGHT HOUSE KEEPER APPOINTED. The Secretary of the Treasury has appointed W L Willard keeper of the Light House, Portland Breakwater, Me, vice W. A Dyer, resigned. Salary $400 per annum.—*Argus*

A young man named Forest has been arrested in Great Falls charged with robbing the jewelry store of Pickering & Kilvert in Lewiston.

HOMICIDE AND SUICIDE.—At St Stephens, on the 20th ult several persons got into a row and during its progress one Jim Smith kicked Robert Bell so that he died of the injuries on Sunday afternoon. Smith is under arrest.

On Sunday, the 21st, Mr L Morse committed suicide by taking poison. Temporary insanity is assigned as the cause. He leaves a wife and several children.

THE OHIO SLAVE CASE.—Gen Lewis, the Sheriff of Greene county, Ohio, the man who arrested the posse of deputy United States Marshals in the celebrated man hunt, was in turn taken into custody by the United States Marshals at his residence in Xenia. Of course he made no resistance, quietly accompanied the officers to Columbus, gave bail for his appearance before the United States Court to answer the charge of obstructing United States officers in the performance of their duty, and will be duly on hand.

THE DALTON CASE. The Boston Herald states that Mr and Mrs Dalton the parties in the recent divorce suit, have become reconciled to each other, and are again living together. The Herald says:

An interchange of tokens of affection took place, and last Friday afternoon she left her home in Cambridge and visited her husband at his boarding house. We suppose they are now united indissolubly. He has forgiven the flirtations—and they were nothing more—which led to such unhappy results and she has forgiven him the injury which he has inflicted upon her.

Dea Louis Hoar of Warren, R I was on Boston Common last Wednesday when a rascal stealthily came up and striking the old gentleman's elbow in such a manner as to cause his hand to be drawn from his pocket for an instant, the rascal thrust in his own fingers and seizing Mr Hoar's pocket-book, was safely off with it in less than no time. It contained some $25.

In the State of Kentucky the barbarous practice of selling paupers still exists, and a man named Hough was recently sold for four months at Covington because he could not support himself.

An Irishman, in great fright and haste, rushed into Abernethy's office, and exclaimed "Be dad the boy Tim has swallowed a mouse!" "Then, be dad," said the Doctor, "tell the boy Tim to swallow a cat."

The Steamboat Disaster on the St. Lawrence River.

From the Montreal and Quebec papers received last evening we gather the following particulars of the burning of the Montreal.—The Quebec Morning Chronicle says:

From all the information as yet gathered relating to hard ... there appears to be an opinion that the fire arose from accident—some say from sparks falling on the after part of the boat. The opinion entertained by others is that the wood work had, by being too near the furnaces, got dried, and having frequently heated eventually burst into flame—The fire was first discovered about five o'clock, when the steamer was passing Cap rouge and attention being called to the circumstance, the passengers got acquainted with the fact, and naturally evinced much alarm. The boats were got ready in case of emergency while every effort was made to extinguish the flames. The Montreal was then at the upper end of Cap rouge, and the smoke and flame increasing tenfold, indicated to clearly that the fire was gaining rapidly, and becoming intolerable. All steam was now put on for the land, and the steamer was soon run ashore, at a place about fifteen miles distant from Quebec, between Cap rouge and St Augustin. A scene of the wildest confusion and despair was here witnessed, and the passengers recklessly threw themselves overboard, to escape what they conceived the more imminent danger.

There were, according to the best accounts, which could be had, about 350 passengers on board of whom 30 were cabin passengers. Of this number 117 were saved by the steamer Napoleon and have saved themselves, making the loss of lives to be upwards of 200.

In running the boat ashore she unfortunately struck on a ridge of stone with deep water on each side of her, had she got a few yards further, she might have landed her passengers high and dry.

The following persons are said to have been saved by the Napoleon:

Mrs Hunter and her four children, John Meiklehem, John Brown and lady, cabin passengers, and 109 steerage passengers. Also that 16 bodies were picked up, some of which were alive when taken on board, but so burned and otherwise injured that death speedily relieved the sufferers.

The following particulars are given by the Montreal Pilot:

Two children were rescued one 4 and the other 7 years of age. They lost their father and mother. We also saw a sweet little infant, aged about 14 months, in the arms of one of the patients, who had lost its father and mother, it was picked up in the water, and all that is known about it is that its name is 'Jane.'

Arthur Connor of Lachine, is also a patient in that Institution. He has given us the following statement:

I was a steerage passenger on the Montreal. I was in the forward part of the boat when I heard some persons give the alarm of fire. It burst out so suddenly that I was bewildered. I jumped into the water, and when I rose to the surface a woman seized hold of me. I succeeded in getting to the wheel, and held on by one of the blades till I was rescued by one of the boats from the Napoleon. There was a large number holding on to the wheel with me, men and women, some without any clothing on. When the alarm of fire was given the passengers became frantic and jumped overboard in scores, and on top of each other. Some sank and never rose, others struggled for some time and then sank. I was severely burned while hanging on the wheel, by burning pieces of wood falling on me.

James M'Diarmid, a waiter on board the Montreal, is badly burned and is in the Hospital. The following is his statement:

The fire caught above the boiler he supposes from the intense heat from the boiler, and it spread very rapidly. I was in the lower cabin when the baggage man came down and said you had better look out for the boat is on fire. We all rushed up stairs and found it had caught in exactly the same place where it had caught before. It had taken there twice this season, but we always got it out, and the boiler had been tinned over. I saw it spread so rapidly that I got the lady's maid and the saloon maid into the long boat. We had only one boat to lower, the second being on fire—Immediately on this boat being launched many jumped over, swam to it, and it was swamped and many in it drowned. I jumped overboard and held on by a rope, some eight or ten held on by my legs. Some held on till I

was rescued, others being exhausted dropped off. I saw an American lady and gentleman jump overboard. They floated for some time, but at last sunk. There were 18 of the hands lost.

THE ART OF TRADE.—Some years ago, during the heat of a coffee speculation in Boston, when everybody was holding on, waiting for the article to advance, an old merchant, keen as a razor, whose store was packed from the first to the fourth floor with prime green Rio, concluded from signs which he well understood, that prices had reached their acme. He was too old a hand at the bellows not to know, that the moment he, with his immense stock, began to sell, an alarm would be taken, and down would go the prices. Quietly sending off a pretty stiff invoice of the article to auction, and giving the auctioneer a good humored hint to mind his own business, he attended the sale, and bid readily at prevailing prices for the coffee. Other holders, that knew he had twice as much on hand as they had, concluded that it was safe to buy when he did, and so stood up manfully and bought largely. While old Mr. —— 's carmen were tumbling his purchases in at the front door of his warehouse, five times as many were carrying away coffee from the back door. On the next day of sale he bid as freely as ever, and this continued for some two or three weeks. One day he failed to appear at coffee sale, and most of the dealers took the alarm and prices declined a little. During the afternoon a pretty large holder, who had always been ready to buy when he saw Mr —— willing, met him in the street, and asked the rate of coffee.

'I don't know what it is going at to day,' replied the old fellow, as cool and pleasant as an ice cream.

'It declined this morning.'

'Did it?' responded Mr ——, with what seemed to his fellow tradesman, a strange manifestation of indifference.

'Yes, certainly. Haven't you heard it before?'

'No—but I expected as much.'

'Why, we shall all be ruined if prices go down.'

'Not all I presume,' replied Mr. ——, with an unmoved countenance.

'Why, you're in it deeper than any of us.'

'Me!' exclaimed Mr —— in well feigned astonishment, '*I haven't a bag in my store*.'

The next day the bubble burst and half a dozen grasping speculators, who had been for a month or two, dreaming nightly over their golden gains were ruined.

HOW A SUN STROKE AFFECTS A MAN.—The general impression is that death by sun-stroke is very painful, but the contrary would seem to be the fact, judging from the following account of the effect of such a visitation, given by Gen Sir C J Napier. He experienced an attack while in Scinde, where the thermometer, according to the General himself was as much use to him as it would have been to a boiling lobster, and wrote as follows to one of his daughters. "The sun stroke was a staggerer, yet my hope is to die by one, for never can death come in an easier shape. I was just deadly sleepy, it was deadly had I been left alone, but the only feeling of the transit on would have been a tiredness, like that experienced at being suddenly waked up before time. This was to a degree almost to be called pain full then came a pleasant drowsiness, with anger that the doctors would not let me sleep—Were it not for others here, would that my Form had then sounded so easy, so delightful I may say, was the approach of death. This resembles the accounts that have been given by men who have been saved from freezing to death, after having got far down into the dark valley, so that the excess of heat and excess of cold produce precisely the same effects.

A FRENCH TRICK. We find this in a French correspondent's letter to a Southern journal:

"My dear," asked a young Paris lady to a female friend, "do you believe that miserly X would lend me three thousand francs?"

X was the name of a well known sporting man.

"It depends on chance," was the answer. "How shall I set about it?"

"Take a pen and write:

"My dear Alfred—I have been disappointed in the non-receipt of some money this morning. Could you bring me this evening three thousand francs, and at the same time carve a pheasant I have just received.

ERNESTINE."

"And do you believe," said she, when the letter was sent, "that I shall have my money?"

"With that note my dear, you'll not get a sou."

"Why did you make me write it?"

"Because it was necessary that a first note should precede a second—do you understand?"

"No."

"Take your pen."

"What, write again."

"Three lines only."

"My dear Alfred—Think of my note as not sent. Just after I despatched it, I received my money. Don't forget, however, to come and sup with me. The pheasant is superb."

This letter was sent like the first.

"Now see what will happen," said the lady friend. "Alfred will feign not to have received your second letter, and will make a show of generosity when he thinks you need no money. The rest is with yourself."

All was executed according to form, the sporting man gallantly offered the three thousand francs, convinced that they would not be accepted, but to his horror the lady quietly pocketed the money. And to add to his amazement, not a bit of a pheasant was there to eat.

A FAITHFUL WIFE AND A BRUTAL HUSBAND. Some four years since a man was sentenced to the New Hampshire State Prison, for an attempt to kill his wife. She, full of affection, had been unsparing in her efforts for him and finally obtained a pardon, with which, in company with the man's mother, she joyfully hastened to the prison one Saturday morning very recently, eager to liberate him whom she loved so well, despite his cruel treatment and long absence. The correspondent of the Manchester American thus narrates the sequel:

"For several days previous the man had refused to work, feigning sickness. The physician reported that he was well. Saturday morning the warden went to his cell and told him to go out, he replied that he was sick.—Finally Mr E said 'you must go, you are pardoned.' 'Well, said he 'if I must I must, I suppose,' and immediately followed the warden to the office, where were his wife and mother. They were filled with joy and spoke kindly to him but he would make no reply. He sullenly dressed himself in a suit provided for him, and left the office. After reaching the yard, the hardened wretch tore his vest from him, rent his clothes, and departed muttering curses on his benefactors. Considering the circumstances, this case shows a depravity seldom witnessed."

THE POISONING CASE IN VIRGINIA. The particulars of the poisoning of the Gill family have come to hand. The family was composed of Mr and Mrs Gill and six children. Two of the children have already died, and two others are in a very dangerous condition. In the apartments of the domestics were found secreted several boxes and vials containing sugar of lead and carbonate of lead. These slow poisons, it was ascertained, had been introduced daily, for several weeks into the food cooked for the family. The slaves have been arrested and lodged in jail, but it is suspected that a more intelligent principal directed the affair.

Home Manufactures.

The encouragement of our manufactures, though demanded on the score of principles of justice and good sense is regarded with many people more in the theory than practice. We desire to call attention to the fact that those in want of a good article of VARNISH can save themselves much unnecessary expense simply by buying it at home instead of purchasing as the practice has hitherto been in New York. By this means purchasers can save the added cost of transporting the raw material from Salem to New York for manufacture in this city, and then bringing it back again to the store. This being true, we ... avail themselves of this ... We call the attention of buyers to the large stock of Messrs STIMSON VALENTINE & CO, 3 Broad Street, Boston.—*Merchants and Manufacturers*

EXAMINE THE

Brandon Metalic Paints,

FOR Brick, Iron, Wood and Roof Painting. The Brandon Paints having been thoroughly tested, the Brandon Iron Company have entered largely into their manufacture, and present them to the public with great confidence, as the best Prints in the market. They are natural pigments—composed of Alumina, Protoxide and Peroxide of Iron, and Deutoxide of Manganese in varying proportions, and complete in their chemical combination, equal to the finest and most costly paints, and differing entirely from the earths and red shale abounding throughout this country, and so often sold under the title of "Mineral" or "Fire Proof Paint." For full description of their excellent qualities, see pamphlets at the store of N. S. HARLOW, No. 4 Smith's Block.

Which is the only place where these Paints can be bought in Bangor. ju22

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837)

No. 76 State Street, opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate — The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a Patent and the usual great delay there, are here saved inventors

Testimonials

"During the time I occupied the office of Commissioner of Patents R H EDDY Esq, of Boston did business at the Patent Office as Solicitor for procuring Patents — There were few if any persons acting in that capacity, who had so much business before the Patent Office and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

HAIR INVIGORATOR AND TONIC

A gentleman of Boston writes to his friend in New Bedford thus—

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative my hair was almost white and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely but I found that before I had used all the second bottle (which was eight weeks) my hair was entirely changed to its original color light brown and is now free from Dandruff and quite moist I have had my hair cut five times since the change and I have never seen anything like white hair ... from the roots and it ... the hair ever was and ... at all that I could wish to ask Yours etc —

Professor O J Wood

Brookfield Mass January 12, 1855

Dear Sir—I have made a trial of your Hair Restorative and it gives me pleasure to say that its effect has been excellent in removing inflammation dandruff and a constant itching tendency with which I have been troubled from childhood and has also restored my hair which was becoming gray, to its original color I have used no other article with any thing like the pleasure and profit

Yours truly, J K BRAGG
Pastor of the Orthodox Church Brookfield

Professor Wood

[From the Missouri Democrat.]

WOOD'S HAIR DYE —This admirable article is rapidly improving the hair No article of a similar kind now before the public enjoys a better reputation as a restorative and invigorating hair tonic Its peculiar chemical qualities have a beneficial effect upon the growth and character of the hair giving a silky and glossy texture to that which was formerly of a coarse and dry nature It has also, we understand a tendency to preserve the youthful color and appearance of the hair and destroying or counteracting the effects of age With such recommendations in its favor, we hardly perceive how any lady or gentleman should be without so valuable an adjunct to their toilet
